

Hi! As a digital mail service, we don't take address changes lightly. Due to the ownership situation, we, unfortunately, had no choice but to change from our long-term home to future-proof MYPOSTE <Notice>. The user mailing address will have to be updated. Kindly update your address to ensure service without any interruptions. Do update your forwarding and registration address to reflect our new location.

We understand that change can sometimes be inconvenient, but this update is essential to ensure the continued quality of our services. We greatly appreciate your prompt attention. If you have any questions or need help, please do not hesitate to contact us.

- ✓ The new address is active and can be used already
- ✓ The old address will still be active for 1 month +
- ✓ Mails are being auto-transferred from the old location
- ✓ Self-collections are restricted until further notice
- ✓ Receiving, notifications, scans, and forwarding are fully active
- ✓ **Update your forwarding and registration address**
